Virtually painless ano-genital wart treatment is now within reach! Verrutop allows practitioners to clear up to 50% of warts in a single application, whilst minimising irritation, sores, scarring and skin pigmentation. Take full control of wart treatment, even in patients where compliance has been an issue in the past. A few minutes in clinic ensures patient concordance and an overall clearance rate of up to 90% it's well worth considering. Please come and see us.

At Exeltis UK, we are passionate about making our pipeline of women's health medicines available in the UK. Our approach to all our partners, whether healthcare professionals, associated bodies or pharmaceutical industry contacts, has transparency and integrity at the core of all we do. Established in 2022 Exeltis UK is working to bring a number of new treatment options to UK patients. With products in a range of therapy areas, we are all about meeting unmet needs for women at key stages of their sexual and reproductive lives.

Gedeon Richter have a presence in over 100 countries worldwide and have been working to change lives for the better since 1901. We are one of the few companies in the world to offer a comprehensive portfolio for women; our R&D team continue to innovate and extend our gynaecological, fertility and osteoporosis portfolio, aiming to address women's healthcare needs in these areas. Our ambition is to help women achieve theirs. April 2022, UKGED-2200035

Gilead Sciences, Inc. is a biopharmaceutical company that has pursued and achieved breakthroughs in medicine for more than three decades, with the goal of creating a healthier world for all people. The company is committed to advancing innovative medicines to prevent and treat life-threatening diseases, including HIV, viral hepatitis, COVID-19, and cancer. Gilead operates in more than 35 countries worldwide, with headquarters in Foster City, California. For more than 30 years, Gilead has been a leading innovator in the field of HIV, driving advances in treatment, prevention, testing and linkage to care, and cure research. Today, millions of people living with HIV globally receive antiretroviral therapy provided by Gilead or one of the company's manufacturing partners.
